

Vision:CHC Practice Management

DESIGNED EXCLUSIVELY FOR COMMUNITY HEALTH CENTERS

Our dedication to CHCs means we focus exclusively on CHCs, and their clinical and operational environments. We pro-actively develop and deploy our *Vision:CHC* system to meet our CHC clients' unique needs and requirements.

The core of *Vision:CHC* Practice Management is clinical, operational, financial, and reporting functions unique to Federally-Qualified Health Centers, FQHC Look-alikes, and Rural Health Centers. In Practice Management, these functions include:

- FQHC billing – Federal and State
- Claim management and eligibility verification
- UDS reporting, updated annually
- Centralized medical and dental billing and accounts receivable
- Grant tracking
- Customizable management dashboards
- Drill-down reports to show performance against goals
- Integrated clinical and operational appointment scheduling
- Managed care administration
- Automatic report scheduler
